INDEPENDENT AUDITOR'S REPORT

Board of Commissioners
North Fort Myers Fire Control and Rescue Service District
P.O. Box 3507
North Fort Myers, Florida 33918

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of North Fort Myers Fire Control and Rescue Service District (the "District") as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of Florida Retirement Systems Pension Plan (FRS) or Health Insurance Subsidy Pension Plan (HIS) as of and for the year ended June 30, 2015. The District is required to record its proportionate share of the FRS and HIS liability in the District's government-wide financial statements as of September 30, 2015, and for the year then ended. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for North Fort Myers Fire Control and Rescue Service District's government-wide financial statements, is based on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating overall presentation of the financial statements.

INTEGRITY SERVICE EXPERIENCE

12621 World Plaza Lane, Building 55 • Fort Myers, FL 33907 • Phone: (239) 333-2090 • Fax: (239) 333-2097

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of North Fort Myers Fire Control and Rescue Service District as of September 30, 2015, and the respective changes in financial position, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Matters of Emphasis

During the year ended September 30, 2015, the District's unrestricted net asset balance became a deficit, due substantially to recording the current year actuarially determined OPEB liability of \$477,000. The total OPEB liability at September 30, 2015 was \$2,892,000. This is a non-cash actuarially determined liability related to the future cost of allowing retirees to remain on the District's health care policy and for paying a portion of retiree coverage. The District's fund balance remains approximately equal to six (6) months budgeted expenditures. Our opinion was not modified for this matter.

During the year ended September 30, 2015, the District adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, an amendment of GASB Statement No. 27, which is a change in accounting principle that requires an employer participating in a defined benefit pension plan to report the employer's proportionate share of the net pension liability of the defined pension plan. This affects the comparability of amounts reported in the 2014-15 fiscal year with the amount reported for the 2013-14 fiscal year. As a result of the implementation of GASB 68, the District reported a restatement of net position for the change in accounting principle of \$4,924,452 (see Note O). The auditor's opinion was not modified with respect to the restatement.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages i - vi, Schedule of the District's Proportionate Share of the Net Pension Liability - Florida Retirement System Pension Plan (FRS), Schedule of District Contributions - Florida Retirement System Pension Plan (FRS), Schedule of the District's Proportionate Share of the Net Pension Liability - Health Insurance Subsidy Pension Plan (HIS), Schedule of District Contributions - Health Insurance Subsidy Pension Plan (HIS), and Notes to Required Supplementary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information - management's discussion and analysis (MD&A), Schedule of the District's Proportionate Share of the Net Pension Liability - Florida Retirement System Pension Plan (FRS), Schedule of District Contributions - Florida Retirement System Pension Plan (FRS), Schedule of the District's Proportionate Share of the Net Pension Liability - Health Insurance Subsidy Pension Plan (HIS), Schedule of District Contributions - Health Insurance Subsidy Pension Plan (HIS), and Notes to Required Supplementary Information, as listed in the table of contents, in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements.

We do not express an opinion or provide any assurance on the required supplementary information - management's discussion and analysis (MD&A), Schedule of the District's Proportionate Share of the Net Pension Liability - Florida Retirement System Pension Plan (FRS), Schedule of District Contributions - Florida Retirement System Pension Plan (FRS), Schedule of the District's Proportionate Share of the Net Pension Liability - Health Insurance Subsidy Pension Plan (HIS), Schedule of District Contributions - Health Insurance Subsidy Pension Plan (HIS), and Notes to Required Supplementary Information, as listed in the table of contents, because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Required Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise North Fort Myers Fire Control and Rescue Service District's basic financial statements. The required supplementary information other than MD&A - budgetary comparison information is presented for purposes of additional analysis and is not a required part of the basic financial statements. The required supplementary information other than MD&A - budgetary comparison information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the required supplementary information other than MD&A - budgetary comparison information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The Exhibit - Management's Response to Independent Auditor's Report to Management is not a required part of the basic financial statements but is required by Government Auditing Standards. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Section 218.415, Florida Statutes

In accordance with Section 218.415, Florida Statutes, we have also issued a report dated May 5, 2016, on our consideration of North Fort Myers Fire Control and Rescue Service District's compliance with provisions of Section 218.415, Florida Statutes. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing, and to provide an opinion on compliance with the aforementioned Statute. That report is an integral part of an audit performed in accordance with Sections 218.39 and 218.415, Florida Statutes in considering North Fort Myers Fire Control and Rescue Service District's compliance with Section 218.415, Florida Statutes.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated May 5, 2016 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contract and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on

Board of Commissioners
North Fort Myers Fire Control and Rescue Service District
Page 4

compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering North Fort Myers Fire Control and Rescue Service District's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION
AND ANALYSIS
(MD&A)**

Management's Discussion and Analysis

This discussion and analysis of the North Fort Myers Fire Control and Rescue Service District (the “District”) financial statements is designed to introduce the basic financial statements and provide an analytical overview of the District’s financial activities for the fiscal year ended September 30, 2015. The basic financial statements are comprised of the government-wide financial statements, governmental fund financial statements, and footnotes. We hope this will assist readers in identifying significant financial issues and changes in the District’s financial position.

District Highlights

- At the close of fiscal year 2015, the District’s net position was a deficit of \$(4,010,376) due to recording the District’s OPEB liability and net pension liability.
- The District’s total net position decreased \$481,551, or 14%, in comparison to the prior fiscal year.
- The District had a deficit of \$(5,020,459) of unrestricted net assets.
- Total revenues decreased \$75,617, or 1%, in comparison to the prior fiscal year.
- Total expenses decreased \$516,334, or 8%, in comparison to the prior fiscal year substantially due to implementation of GASB #68.

Government-wide Financial Statements

Government-wide financial statements (statement of net position and statement of activities found on pages 5 & 6) are intended to allow a reader to assess a government’s operational accountability. Operational accountability is defined as the extent to which the government has met its operating objectives efficiently and effectively, using all resources available for that purpose, and whether it can continue to meet its objectives for the foreseeable future. Government-wide financial statements concentrate on the District as a whole and do not emphasize fund types.

The Statement of Net Position (page 5) presents information on all of the District’s assets and liabilities, with the difference between the two reported as net position. The District’s capital assets (land, construction in progress, buildings and improvements, vehicles and equipment) are included in this statement and reported net of their accumulated depreciation.

The Statement of Activities (page 6) presents revenue and expense information showing how the District’s net position changed during the fiscal year. Both statements are measured and reported using the economic resource measurement focus (revenues and expenses) and the accrual basis of accounting (revenue recognized when earned and expense recognized when a liability is incurred, regardless of the timing of related cash flows).

Governmental Fund Financial Statements

The accounts of the District are organized on the basis of governmental funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

Governmental fund financial statements (found on pages 7 and 9) are prepared on the modified accrual basis using the current financial resources measurement focus. Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available as net current assets. Expenditures are generally recognized when the related fund liability is incurred.

Notes to the Financial Statements

The notes to the financial statements explain in detail some of the data contained in the preceding basic financial statements and begin on page 11. These notes are essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-Wide Financial Analysis

The government-wide financial statements were designed so that the user could determine if the District is in a better or worse financial condition from the prior year.

The following is a summary statement of net position for the District at September 30, 2014 and 2015:

Summary Statement of Net Position

September 30

	2014	2015
Assets:		
Current assets	\$ 2,944,661	\$ 2,996,299
Capital assets, net	<u>1,501,537</u>	<u>1,010,083</u>
Total Assets	<u>4,446,198</u>	<u>4,006,382</u>
Deferred outflows of resources - Pensions	<u>418,455</u>	<u>1,736,932</u>
Liabilities:		
Current liabilities	312,968	296,994
Non-current liabilities	<u>5,137,577</u>	<u>7,195,623</u>
Total Liabilities	<u>5,450,545</u>	<u>7,492,617</u>
Deferred inflows of resources - Pensions	<u>2,942,933</u>	<u>2,261,073</u>
Net Position:		
Net Investment in capital assets	1,501,537	1,010,083
Unrestricted (deficit)	<u>(5,030,362)</u>	<u>(5,020,459)</u>
Total Net Position (deficit)	<u>\$ (3,528,825)</u>	<u>\$ (4,010,376)</u>

Current assets represent 75% of total assets at September 30, 2015. Current assets are comprised of unrestricted cash balances of \$2,585,157, unrestricted investments of \$173,286, restricted investments of \$182,949, due from other governments of \$54,757, other receivables of \$150. The balances of unrestricted cash and investments represent amounts that are available for spending at the District's discretion. Restricted investments balances are comprised of impact fees funds restricted for certain capital asset acquisition.

The net investment in capital assets represents a component of net position and is comprised of land, construction in progress, buildings and improvements, equipment, furniture and vehicles, net of accumulated depreciation, and the outstanding related debt used to acquire the assets. The net balance of investment in capital assets at September 30, 2015, was \$1,010,083.

The unrestricted net position balance (deficit) of (\$5,020,459) represents negative resources available for spending.

The following schedule reports the revenues, expenses, and changes in net position for the District for the years ended September 30, 2014 and 2015:

**Summary of Revenues, Expenses and Changes in Net Position
For the years ended September 30**

Revenues:	2014	2015
General/Program Revenues		
Property Taxes	\$ 5,160,496	\$ 5,405,248
Charges for Services	14,725	13,202
Operating & Capital Grants	16,280	59,905
Miscellaneous		
Impact Fees	27,034	5,979
Investment Earnings	3,643	3,408
Gain (Loss) on Disposition of Capital Assets	(15,669)	(374,001)
Rent	-	7,500
Other	29,952	39,603
Total Revenues	5,236,461	5,160,844
Expenses:		
Public Safety-		
Fire & Rescue Services	6,158,729	5,642,395
Increase (Decrease) in Net Position	(922,268)	(481,551)
Net Position (Deficit) - Beginning, prior to restatement	2,317,895	(3,528,825)
Prior Period Adjustment	(4,924,452)	-
Net Position (Deficit) - Beginning, after restatement	(2,606,557)	(3,528,825)
Net Position (Deficit) - Ending	\$ (3,528,825)	\$ (4,010,376)

Total revenues decreased \$75,617, or 1%, in comparison to the prior fiscal year. Total expenses decreased \$516,334, or 8%, in comparison to the prior fiscal year.

The assessed property value increased 4.7%, resulting in slightly increased ad valorem tax revenues. This is the second year in the past five years, we have seen a slight increase in property taxes. The District was able to maintain low millage rates while providing the funds for the cost of growth and reserve requirements. The following schedule compares the change in property value and millage rates for the past five years. The millage rate has remained at 2.5 mills over the past seven years.

Property Values Assessed

Budgetary Highlights

Budget versus actual comparisons are reported in the required supplementary information other than management discussion and analysis on pages 48 through 57. The Board of Commissioners approved several budget amendments in the General Fund during the fiscal year ended September 30, 2015. The budget amendments transferred budgeted amounts between line items and changed the total budgeted revenue over (under) expenditures. The budget amendments did decrease total budgeted revenues and expenditures by \$136,284 as a result of the decrease in the fund balance carryforward.

Capital Assets

Non-depreciable capital assets include land and construction in progress. Depreciable capital assets include: building and improvements, equipment and vehicles.

The following is a schedule of the District's capital assets at September 30, 2014 and 2015:

Capital Assets September 30

CAPITAL ASSETS	2014	2015
Land	\$ 129,157	\$ 96,868
Construction in progress	<u>331,249</u>	<u>-</u>
Total Capital Assets not depreciated	<u>460,406</u>	<u>96,868</u>
Buildings and Improvements	1,165,237	1,158,439
Vehicles	1,401,920	1,354,481
Equipment	<u>1,048,739</u>	<u>1,031,684</u>
Total Capital Assets being depreciated	<u>3,615,896</u>	<u>3,544,604</u>
ACCUMULATED DEPRECIATION		
Buildings and Improvements	(683,982)	(670,378)
Vehicles	(1,204,979)	(1,222,887)
Equipment	<u>(685,804)</u>	<u>(738,124)</u>
Total Accumulated Depreciation	<u>(2,574,765)</u>	<u>(2,631,389)</u>
CAPITAL ASSETS, NET	<u>\$ 1,501,537</u>	<u>\$ 1,010,083</u>

Noteworthy capital asset purchases/projects that took place in fiscal year 2015 were as follows:

- Replaced 9 sets of Bunker Gear
- Purchased 3 VHF Alert radios (a back up radio system, for each station).
- Installed a Fire Suppression/Sprinkler/Alarm system at Station #1, Trail Dairy Circle.

The District also determined, due to the District's current economic condition, that it should abandon its tentative plans to build a new station and therefore, wrote off all related costs (\$331,249) incurred in previous years.

Debt Administration

At September 30, 2015, the District had \$7,195,623 of outstanding long-term obligations. Long term liabilities are not due and payable in the current period. The following is a schedule of the District's outstanding debt at September 30, 2014 and 2015:

Outstanding Debt September 30

	2014	2015
Compensated Absences - Vacation Time	\$ 233,310	\$ 225,690
Compensated Absences - Comp Time	89,293	72,891
Net OPEB Obligation	2,415,000	2,892,000
Net Pension Liability	2,399,974	4,005,042
Total Outstanding Debt	<u>\$ 5,137,577</u>	<u>\$ 7,195,623</u>

Economic Factors and Next Year's Budget Rates

The following were factors considered when next year's budget (2015-2016) was prepared:

- Property values did increase by \$106,416,623, or 5%, to \$2,327,953,948 in tax year 2015; however, this was offset by an increase in the amount of allowable tangible tax exemptions. The District expects property values to level off, and not continue the increase that we have been seeing; we are not sure about the long-term future of assessed values.
- The District plans to operate with the millage rate of 2.5 for the fiscal year ending September 30, 2016.
- The District has several personnel in the DROP program in the Florida Retirement System.
- The District had several personnel leave, which was not planned.
- The District continues to use the internship program, which is working very well.
- The District is looking at ways to utilize Impact Fees to help with the demands of the District.
- The District is in need of replacing 2 Engines, as well as other Fire Rescue Equipment.
- The District will be asking the citizens of North Fort Myers to increase the millage rate to 3.5, during the 2016 election year.

RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCE -
GOVERNMENTAL FUNDS TO THE STATEMENT
OF ACTIVITIES**

Page 10 of 65

Year Ended September 30, 2015

	<u>Amount</u>
Net change (revenues in excess of expenditures) in fund balance - total governmental funds	\$ 67,612

The increase (decrease) in net position reported for governmental activities in the Statement of Activities is different because:

Governmental funds report capital outlays as expenditures.
However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Plus: expenditures for capital assets	72,244
Less: current year depreciation	(187,197)
Less: proceeds from disposition of capital assets	(2,500)
Less: loss on disposition of capital assets	<u>(374,001)</u>
	(491,454)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.

Net decrease in compensated absences - vacation	7,620
Net decrease in compensated absences - comp. time	16,402
Increase in Net OPEB obligation	(477,000)
(Increase) decrease in net pension liability - pension (FRS)	(1,495,578)
(Increase) decrease in net pension liability - HIS	(109,490)
Increase (decrease) in deferred outflows	1,318,477
(Increase) decrease in deferred inflows	<u>681,860</u>
	<u>(57,709)</u>
Decrease in net position of governmental activities	<u>\$ (481,551)</u>

The accompanying notes are an integral part of this statement.

Page 11 of 65

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES**

Organization

The North Fort Myers Fire Control and Rescue Service District (the "District") is an independent special taxing district located in northern unincorporated Lee County, Florida. The District was established on June 15, 1953 by Laws of Florida, Chapter 29240. The District has the general and special powers prescribed by Florida Statutes Chapters 189, 191, 200, 218 and 633.15, as well as Laws of Florida, Chapter 97-340. The District's governing legislation was recreated, reenacted and codified by Laws of Florida, Chapter 2000-385 on July 3, 2000. The District is governed by a five-member (5) at-large elected Board of Commissioners. Commissioners serve on a staggered four-year (4) term basis.

The District provides fire control and protection services, fire safety inspections, and crash and fire rescue services as well as EMS medical response. In providing these services, the District operates and maintains three (3) station houses and the related equipment and employs approximately 50 full-time professional firefighters, support staff and commissioners.

Summary of Significant Accounting Policies

The following is a summary of the significant accounting policies used in the preparation of these basic financial statements.

The basic financial statements of the District are comprised of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements
- Required supplementary information other than MD&A

**NORTH FORT MYERS FIRE CONTROL
AND RESCUE SERVICE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2015**

Page 12 of 65

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Reporting Entity

The District adheres to Governmental Accounting Standards Board (GASB) Statement Number 14, "Financial Reporting Entity," as amended by GASB Statement Number 39, "Determining Whether Certain Organizations Are Component Units" and GASB Statement Number 61, "The Financial Reporting Entity: Omnibus - An Amendment of GASB Statements No. 14 and No. 34". These statements require the basic financial statements of the District (the primary government) to include its component units, if any. A component unit is a legally separate organization for which the elected officials of the primary government are financially accountable. Based on the criteria established in GASB Statement No. 14, as amended, there are no component units required to be included or included in the District's basic financial statements.

Government-wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the activities of the District and do not emphasize fund types. These governmental activities comprise the primary government. General governmental and intergovernmental revenues support the governmental activities. The purpose of the government-wide financial statements is to allow the user to be able to determine if the District is in a better or worse financial position than the prior year. The effect of all interfund activity between governmental funds has been removed from the government-wide financial statements.

Government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement 33, "Accounting and Financial Reporting for Nonexchange Transactions."

**NORTH FORT MYERS FIRE CONTROL
AND RESCUE SERVICE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2015**

Page 13 of 65

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Government-wide Financial Statements, continued

Amounts paid to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as expenditures. Proceeds of long-term debt are recorded as liabilities in the government-wide financial statements, rather than as other financing sources. Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability in the government-wide financial statements, rather than as expenditures.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital improvements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues. Program revenues are considered to be revenues generated by services performed and/or by fees charged such as inspection fees.

Fund Financial Statements

The District adheres to GASB Number 54, "Fund Balance Reporting and Governmental Fund Type Definitions."

The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity or retained earnings, revenues, and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements for the District's governmental funds are presented after the government-wide financial statements. These statements display information about major funds individually and non-major funds, in aggregate, for governmental funds.

**NORTH FORT MYERS FIRE CONTROL
AND RESCUE SERVICE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2015**

Page 14 of 65

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Governmental Funds

The District's major funds are presented in separate columns on the governmental fund financial statements. The definition of a major fund is one that meets certain criteria set forth in GASB Statement Number 34, "Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments." The funds that do not meet the criteria of a major fund are considered non-major funds and are combined into a single column on the governmental fund financial statements.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported in separate columns on the fund financial statements.

Measurement Focus and Basis of Accounting

Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the basic financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period and soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers tax revenues to be available if they are collected within sixty days of the end of the current fiscal period.

**NORTH FORT MYERS FIRE CONTROL
AND RESCUE SERVICE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2015**

Page 15 of 65

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Measurement Focus and Basis of Accounting, continued

Revenues susceptible to accrual are property taxes, interest on investments, and intergovernmental revenues. Property taxes are recorded as revenues in the fiscal year in which they are levied, provided they are collected in the current period or within sixty days thereafter. Interest on invested funds is recognized when earned. Intergovernmental revenues that are reimbursements for specific purposes or projects are recognized when all eligibility requirements are met.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Exceptions to this general rule include: (1) principal and interest on long-term debt, if any, which is recognized when due; and (2) expenditures are generally not divided between years by the recording of prepaid expenditures.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Separate financial statements are provided for governmental funds.

Change in Accounting Principles

Effective September 30, 2015, the District adopted the provisions of Government Accounting Standards Board Statement No. 68 "Accounting and Financial Reporting for Pensions" (Statement No. 68). The implementation required the District to report its proportionate share of the actuarially determined net pension liability of defined benefit plans in the statement of net position, in the District's financial statements. The District participates in the FRS defined benefit pension plan and the HIS defined benefit plan administered by the Florida Department of Management Services, Division of Retirement. The effects of implementing this Statement are discussed in a subsequent note.

**NORTH FORT MYERS FIRE CONTROL
AND RESCUE SERVICE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2015**

Page 16 of 65

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Non-current Government Assets/Liabilities

GASB 34 requires non-current governmental assets, such as land and buildings, and non-current governmental liabilities, such as notes payable and capital leases, to be reported in the governmental activities column in the government-wide Statement of Net Position.

Major Funds

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in the Impact Fee fund.

The Impact Fee Fund consists of fees collected by Lee County based on new construction within the District. The fees are restricted and can only be used for certain capital expenditures associated with growth within the District.

Budgetary Information

The District has elected to report budgetary comparison of major funds as required supplementary information (RSI).

Investments

The District adheres to the requirements of Governmental Accounting Standards Board (GASB) Statement Number 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools," in which all investments are reported at fair value.

Investments, including restricted investments, consist of funds held in The Local Government Surplus Trust Fund (SBA) administered by the State Board of Administration.

**NORTH FORT MYERS FIRE CONTROL
AND RESCUE SERVICE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2015**

Page 17 of 65

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Capital Assets

Capital assets, which include land, construction in progress, buildings and improvements, equipment and vehicles, are reported in the government-wide Statement of Net Position.

The District follows a capitalization policy which calls for capitalization of all capital assets that have a cost or donated value of \$1,000 or more and have a useful life in excess of one (1) year.

All capital assets are valued at historical cost, or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated fair market value on the date donated. Public domain (infrastructure) capital assets consisting of certain improvements other than buildings, including curbs, gutters and drainage systems, are not capitalized, as the District generally does not acquire such assets. No debt-related interest expense is capitalized as part of capital assets in accordance with GASB 34.

Maintenance, repairs and minor renovations are not capitalized. The acquisition of land and construction projects utilizing resources received from Federal and State agencies are capitalized when the related expenditure is incurred.

Expenditures that materially increase values, change capacities or extend useful lives are capitalized. Upon sale or retirement, the cost is eliminated from the respective accounts.

Expenditures for capital assets are recorded in the fund statements as current expenditures. However, such expenditures are not reflected as expenditures in the government-wide statements, but rather are capitalized and depreciated.

**NORTH FORT MYERS FIRE CONTROL
AND RESCUE SERVICE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2015**

Page 18 of 65

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Capital Assets, continued

Depreciable capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset</u>	<u>Years</u>
Buildings and Improvements	5-30
Equipment	5-15
Vehicles	5-15

Subsequent Events

Subsequent events have been evaluated through May 5, 2016, which is the date the basic financial statements were available to be issued.

Budgets and Budgetary Accounting

The District has adopted an annual budget for the General Fund, which included budgeted expenditures over revenues to be funded through the use of unreserved, undesignated fund balance. The District also adopted a budget for the Special Revenue Fund - Impact Fee.

The District follows these procedures in establishing budgetary data for the General Fund and the Special Revenue Fund:

1. During the summer of each year, the District Fire Chief submits to the Board of Commissioners a proposed operating budget for the fiscal year commencing on the upcoming October 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain taxpayer comments.
3. The budget is adopted by approval of the Board of Commissioners.
4. Budget amounts, as shown in the required supplementary information other than MD&A, are as originally adopted or as amended by the Board of Commissioners.
5. The budget is adopted on a basis consistent with accounting principles generally accepted in the United States of America.
6. The level of control for appropriations is exercised at the fund level.
7. Appropriations lapse at year-end.

**NORTH FORT MYERS FIRE CONTROL
AND RESCUE SERVICE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2015**

Page 19 of 65

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Budgets and Budgetary Accounting, continued

The Board of Commissioners approved several budget amendments in the General Fund during the fiscal year ended September 30, 2015. The budget amendments decreased budgeted expenditures by \$136,284. There were no budget amendments in the Special Revenue Fund.

Impact Fees/Unearned Revenue

The District levies an impact fee on new construction within the District. The intent of the fee is for growth within the District to pay for capital improvements needed due to the growth. The fee is collected by Lee County and remitted to the District. The fee is refundable if not expended by the District within twenty (20) years from the date of collection. The District, therefore, records this fee as restricted cash and as unearned revenue until the date of expenditure, at which time it is recognized as revenue and charged to capital outlay in the Special Revenue Fund.

Due To/From Other Funds

Interfund receivables and payables arise from interfund transactions and are recorded by funds affected in the period in which transactions are executed.

Due From Other Governments

No allowance for losses on uncollectible accounts has been recorded since the District considers all amounts to be fully collectible.

Compensated Absences

The District's employees accumulate annual leave, based on the number of years of continuous service. Upon termination of employment, employees can receive payment of accumulated annual leave if certain criteria are met. The costs of vacation and personal leave (comp time) benefits (compensated absences) are expended in the respective operating funds when payments are made to employees. However, the liability for all accrued vacation and personal leave benefits is recorded in the government-wide Statement of Net Position.

**NORTH FORT MYERS FIRE CONTROL
AND RESCUE SERVICE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2015**

Page 20 of 65

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the District because, at present, it is not necessary in order to assure effective budgetary control or to facilitate effective cash planning and control.

Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Fund Balances

The governmental fund financial statements the District maintains include nonspendable, assigned and unassigned fund balances. Nonspendable fund balances are those that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Criteria include items that are not expected to be converted into cash, for example prepaid expenses.

The District's assigned fund balances are a result of the District's Board approval. The District's intent is to maintain a minimum assigned fund balance level of three (3) months of prior year total expenditures. The assigned fund balance will serve as the District's operational reserve to carry the District's operations from October 1 through December 31 of the subsequent fiscal year. The Board's intent is also to hold an assigned capital asset reserve for future capital asset needs as well as assigned fund balance amounts for disaster events (30 days all-out response) and a portion of the sick leave liability. At September 30, 2015, fund balance is also assigned for a variety of specific items by District Board action. Any use or change of the assigned fund balance requires the District's Board approval.

**NORTH FORT MYERS FIRE CONTROL
AND RESCUE SERVICE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2015**

Page 21 of 65

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Interfund Transactions

The District considers interfund receivables (due from other funds) and interfund liabilities (due to other funds) to be loan transactions to and from other funds to cover temporary (three months or less) cash needs. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing funds and as reduction of expenditures/expenses in the fund that is reimbursed.

Pensions

In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) and the Health Insurance Subsidy (HIS) defined benefit plan and additions to/deductions from fiduciary net position have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments, (including refunds of employees contributions) are recognized when due and payable in accordance with the benefit terms.

The District's retirement plans and related amounts are described in a subsequent note.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The deferred amount on pensions is reported in the government-wide statement of net position. The deferred outflows of resources related to pensions are discussed in a subsequent note.

**NORTH FORT MYERS FIRE CONTROL
AND RESCUE SERVICE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2015**

Page 22 of 65

**NOTE A - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES, CONTINUED**

Deferred Outflows/Inflows of Resources, continued

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The deferred amount on pension is reported only in the government-wide statement of net position. A deferred amount on pension results from the difference in the expected and actual amounts of experience, earnings, and contributions. This amount is deferred and amortized over the service life of all employees that are provided with pensions through the pension plan except earnings which are amortized over five to seven years.

NOTE B - CASH

At September 30, 2015, cash was \$2,585,157, in General Fund which included cash on hand of \$100.

Deposits

The District's deposit policy allows deposits to be held in demand deposit and money market accounts. All District depositories are institutions designated as qualified depositories by the State Treasurer at September 30, 2015.

At September 30, 2015, the District's deposits consisted of cash held in depository accounts. At September 30, 2015, the carrying amount of these deposits was \$2,585,057 and the bank balance was \$ 2,630,243.

These deposits were entirely covered by federal depository insurance or by collateral pursuant to the Public Depository Security Act (Florida Statute Chapter 280) of the State of Florida. Bank balances approximate market value. Depository accounts were either fully insured or collateralized in accordance with Florida Statute Chapter 280.

**NORTH FORT MYERS FIRE CONTROL
AND RESCUE SERVICE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2015**

Page 23 of 65

NOTE C - INVESTMENTS

Florida Statutes and the District's investment policy authorize investments in the Local Government Surplus Funds Trust Fund (SBA) administered by the State Board of Administration. Specifically, the District's investment policy is consistent with Florida Statutes, Chapter 218.415(17). At September 30, 2015, the District's investments in the Local Government Surplus Funds Trust Fund consist of the following:

	Cost Basis	Fair Value (NAV)/ Carrying Amount
<u>General Fund</u>		
Local Government Surplus Trust Fund (SBA)		
PRIME (Fund "A") (LGIP)	\$ 173,286	\$ 173,286
Total investments - General Fund	<u>173,286</u>	<u>173,286</u>
<u>Impact Fee Fund</u>		
Local Government Surplus Trust Fund (SBA)		
PRIME (Fund "A") (LGIP)	182,949	182,949
Total investments - Impact Fee Fund	<u>182,949</u>	<u>182,949</u>
Total investments	<u>\$ 356,235</u>	<u>\$ 356,235</u>

The Local Government Surplus Funds Trust Fund (Florida PRIME (formerly Fund "A")) is an external 2a7-like investment pool, administered by the Florida State Board of Administration. The Local Government Surplus Funds Investment Pool Trust Fund is not categorized as it is not evidenced by securities that exist in physical or book entry form. The Local Government Surplus Trust Funds Investment Pool's shares are stated at amortized cost (NAV), which approximates fair value. These investments are subject to the risk that the market value of an investment, collateral protecting a deposit or securities underlying a repurchase agreements, will decline.

The District's investment in the Fund represented less than 1% of the Fund's total investments. Investments held in the Fund include, but are not limited to, short-term federal agency obligations, treasury bills, repurchase agreements and commercial paper. These short-term investments are stated at cost, which approximates market value. Investment income is recognized as earned and is allocated to participants of the Fund based on their equity participation.

**NORTH FORT MYERS FIRE CONTROL
AND RESCUE SERVICE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2015**

Page 24 of 65

NOTE C - INVESTMENTS, CONTINUED

At September 30, 2015, the District reported SBA investments of \$356,235 fair value/cost for amounts held in Florida PRIME. The Florida PRIME carried a credit rating of AAAm by Standard and Poors and had a weighted average days to maturity (WAM) of 29 days at September 30, 2015.

Restricted Investments

The District has one restricted investment account: Impact Fees. The Impact Fees account is used to account for the deposit of impact fees received and is restricted for certain capital asset acquisition. Impact fees are collected by Lee County for the District pursuant to County ordinance and District resolution.

NOTE D - DUE FROM OTHER GOVERNMENTS

Due from other governments at September 30, 2015 totaled \$54,757 including \$8,253 in fourth quarter Impact Fees (Impact Fee Fund) and \$46,504 in Ad Valorem taxes, excess fees and supplemental education reimbursement (General Fund).

NOTE G - RETIREMENT PLAN - DEFINED BENEFIT PENSION PLAN

General Information about the Florida Retirement System

The Florida Retirement System ("FRS") was created in Chapter 121, Florida Statutes. The FRS was created to provide a defined benefit pension plan ("Pension Plan") for participating public employees. All District employees are participants in the Statewide Florida Retirement System (FRS) under authority of Article X, Section 14 of the State Constitution and Florida Statutes, Chapters 112 and 121. The FRS was amended in 1998 to add the Deferred Retirement Option Program under the defined benefit plan and amended in 2000 to provide an integrated defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree Health Insurance Subsidy (HIS) Program, a separate cost-sharing multiple-employer defined benefit pension plan to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of two cost-sharing, multiple-employer defined benefit plans (Pension and HIS Plans) and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information dated June 30, 2015, is available from the Florida Department of Management Services' Web site (www.dms.myflorida.com).

The District's total pension expense, \$172,728 for the year ended September 30, 2015, and is recorded in the government-wide financial statements. Total District actual retirement contribution expenditures were \$614,362 for the year ended September 30, 2015. The District contributed 100% of the required contributions.

NOTE G - RETIREMENT PLAN - DEFINED BENEFIT PENSION PLAN, CONTINUED

FRS Pension Plan

Plan Description. The FRS Pension Plan ("Plan") is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Program (DROP) for eligible employees. The general classes of membership are as follows:

Regular Class - Members of the FRS who do not qualify for membership in the other classes.

Senior Management Service Class (SMSC) - Members in senior management level positions.

Special Risk Class - Members who are employed as law enforcement officers and meet the criteria to qualify for this class.

Elected Officials - Members who are elected by the voters within the District boundaries.

Employees enrolled in the Plan prior to July 1, 2011, vest at six years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at eight years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service, except for those members classified as special risk who are eligible for normal retirement benefits at age 55 or at any age after 25 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service, except for members classified as special risk who are eligible for normal retirement benefits at age 60 or at any age after 30 years of service. Members of both Plans (Pension and HIS) may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost of living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee

Page 29 of 65

NOTE G - RETIREMENT PLAN - DEFINED BENEFIT PENSION PLAN, CONTINUED

FRS Pension Plan, continued

may participate in DROP for a period not to exceed 60 months after electing to participate. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed on the basis of age, and/or years of service, average final compensation, and credit service. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for the members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on retirement plan and/or the class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following chart shows the percentage value of each year of service credit earned:

Class, Initial Enrollment, and Retirement Age/Years of Service	%Value
Regular Class and elected members initially enrolled before July 1, 2011	
Retirement up to age 62, or up to 30 years of service	1.60
Retirement at age 63 or with 31 years of service	1.63
Retirement at age 64 or with 32 years of service	1.65
Retirement at age 65 or with 33 or more years of service	1.68
Regular Class and elected members initially enrolled on or after July 1, 2011	
Retirement up to age 65 or up to 33 years of service	1.60
Retirement at age 66 or with 34 years of service	1.63
Retirement at age 67 or with 35 years of service	1.65
Retirement at age 68 or with 36 or more years of service	1.68
Special Risk Regular	
Service from December 1, 1970 through September 30, 1974	2.00
Service on or after October 1, 1974	3.00
Senior Management Service Class	2.00

Page 30 of 65

NOTE G - RETIREMENT PLAN - DEFINED BENEFIT PENSION PLAN, CONTINUED

FRS Pension Plan, continued

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Contributions. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the year ended September 30, 2015 were as follows:

Class	Percent of Gross Salary*		
	Employee	Employer (1)	Employer (3)
Florida Retirement System, Regular	3.00	7.37	7.26
Florida Retirement System, Senior Management Service	3.00	21.14	21.43
Florida Retirement System, Special Risk	3.00	19.82	22.04
Deferred Retirement Option Program - Applicable to Members from All of the Above Classes	0.00	12.28	12.88
Florida Retirement System, Reemployed Retiree	(2)	(2)	N/A
Florida Retirement System, Elected Official	3.00	43.24	42.27

Notes:

- (1) Employer rates include 1.26 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.04 percent for administrative costs of the Investment Plan. Rates for 7/1/14 - 6/30/15.
- (2) Contribution rates are dependent upon retirement class in which reemployed.
- (3) Employer rates include 1.66 percent for the post employment health insurance subsidy. Also, employer rates, other than for DROP participants, include .04 percent for administrative costs for the Investment Plan. Rates for 7/1/15 - 6/30/16.

* As defined by the Plan.

NOTE G - RETIREMENT PLAN - DEFINED BENEFIT PENSION PLAN, CONTINUED

FRS Pension Plan, continued

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Pension Plan. At September 30, 2015, the District reported a pension liability of \$2,822,547 for its proportionate share of the net pension liability. The net pension liability was measured as of September 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2015. The District's proportionate share of the net pension liability was based on the District's 2014-15 fiscal year contributions relative to the total 2014-15 fiscal year contributions of all participating members. At September 30, 2015, the District's proportionate share was .021852527 percent, which was an increase of .0001 percent from its proportionate share measure as of September 30, 2014.

For the year ended September 30, 2015, the District recognized pension expense of \$88,323. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to the pension from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 297,977	\$ 66,942
Change of assumptions	187,342	-
Net difference between projected and actual earnings on pension plan investments	994,179	1,668,156
Changes in proportion and differences between District contributions and proportionate share of contributions	13,672	499,026
District contributions subsequent to the measurement date	<u>128,078</u>	<u>-</u>
Total	<u>\$ 1,621,248</u>	<u>\$ 2,234,124</u>

September 30, 2015**

Page 32 of 65

NOTE G - RETIREMENT PLAN - DEFINED BENEFIT PENSION PLAN, CONTINUED

FRS Pension Plan, continued

The deferred outflows (inflows) of resources related to the pension totaling \$(181,131), resulting from District contributions subsequent to the measurement date, will be recognized as a reduction on the net pension liability in the year ended September 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the pension will be recognized in pension expense over the remaining service period of 6.3 years as follows:

Fiscal Year Ending	Amount
<u>September 30</u>	<u> </u>
2016	\$ (181,131)
2017	(181,131)
2018	(181,131)
2019	(181,132)
2020	(12,637)
Thereafter	<u>(3,792)</u>
Total	<u>\$ (740,954)</u>

Actuarial Assumptions. The total pension liability in the July 1, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 percent
Real payroll growth	0.65 percent
Salary increases	3.25 percent, average, including inflation
Investment rate of return	7.65 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the Generational RP-2000 with Projection Scale BB.

The actuarial assumptions used in the July 1, 2015, valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013.

Page 33 of 65

NOTE G - RETIREMENT PLAN - DEFINED BENEFIT PENSION PLAN, CONTINUED

FRS Pension Plan, continued

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation (1)	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1.00%	3.2%	3.1%	1.7%
Fixed income	18.00%	4.8%	4.7%	4.7%
Global equity	53.00%	8.5%	7.2%	17.7%
Real estate (property)	10.00%	6.8%	6.2%	12.0%
Private equity	6.00%	11.9%	8.2%	30.0%
Strategic investments	<u>12.00%</u>	6.7%	6.1%	11.4%
Total	<u><u>100.00%</u></u>			
Assumed inflation - Mean		2.60%		1.90%

(1) As outlined in the Plan's investment policy

Discount Rate. The discount rate used to measure the total pension liability was 7.65 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

NOTE G - RETIREMENT PLAN - DEFINED BENEFIT PENSION PLAN, CONTINUED

HIS Plan

Plan Description. The HIS Plan ("HIS Plan") is a cost-sharing multiple-employer defined benefit pension plan established under section 112.363, Florida Statutes. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Division of Retirement within the Florida Department of Management Services.

Benefits Provided. For the year ended September 30, 2015, eligible retirees and beneficiaries received a monthly HIS payment equal to the number of years of creditable service completed at the time of retirement multiplied by \$5. The payments are at least \$30 but not more than \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which can include Medicare.

Contributions. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the year ended September 30, 2015, the contribution rate ranged between 1.26 percent and 1.66 percent of payroll pursuant to Section 112.363, Florida Statutes. The District contributed 100 percent of its statutorily required contributions for the current and preceding three years. HIS Plan contributions are deposited in a separate trust fund from which HIS payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or cancelled.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the HIS Plan. At September 30, 2015, the District reported a HIS liability of \$1,182,495 for its proportionate share of the net HIS Plan's net pension liability. The net pension liability was measured as of September 30, 2015, and the total pension liability was used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2015. The District's proportionate share of the net HIS liability was based on the

HIS Plan, continued

District's 2014-15 fiscal year contributions relative to the total 2014-15 fiscal year contributions of all participating members. At September 30, 2015, the District's proportionate share was .011594876 percent, which was an increase of .0001 percent from its proportionate share measured as of September 30, 2014.

For the fiscal year ended September 30, 2015, the District recognized HIS expense of \$84,405. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Description</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ -	\$ -
Change of assumptions	93,032	-
Net difference between projected and actual earnings on HIS pension plan investments	640	-
Changes in proportion and differences between District HIS contributions and proportionate share of HIS contributions	9,250	26,949
District contributions subsequent to the measurement date	<u>12,762</u>	-
Total	<u>\$ 115,684</u>	<u>\$ 26,949</u>

The deferred outflows of resources totaling \$12,310 was related to HIS, resulting from District contributions subsequent to the measurement date, will be recognized as a reduction on the net pension liability in the year ended September 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense over the remaining service period of 7.2 years as follows:

<u>Fiscal Year Ending September 30</u>	<u>Amount</u>
2016	\$ 12,310
2017	12,310
2018	12,310
2019	12,310
2020	12,150
Thereafter	<u>14,583</u>
Total	<u>\$ 75,973</u>

AND RESCUE SERVICE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2015**

Page 37 of 65

NOTE G - RETIREMENT PLAN - DEFINED BENEFIT PENSION PLAN, CONTINUED

HIS Plan, continued

Actuarial Assumptions. The total pension liability in the July 1, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 percent
Real Payroll Growth	0.65 percent
Salary Increases	3.25 percent, average, including inflation
Municipal Bond Rate	3.80 percent

Mortality rates were based on the Generational RP-2000 with Projected Scale BB.

Because the HIS Plan is funded on a pay-as-you-go basis, no experience study has been completed for the Plan.

Discount Rate. The discount rate used to measure the total HIS liability was 3.80 percent. In general, the discount rate for calculating the total HIS liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

Sensitivity of the District's Proportionate Share of the Net HIS Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net HIS liability calculated using the discount rate of 3.80 percent, as well as what the District's proportionate share of the net HIS liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.80 percent) or 1-percentage-point higher (4.80 percent) than the current rate:

	1% Decrease (2.80%)	Current Discount Rate (3.80%)	1% Increase (4.80%)
District's proportionate share of the net HIS liability	\$ 1,347,398	\$ 1,182,495	\$ 1,044,991

Payables to the Pension Plan. At September 30, 2015, the District reported a payable of \$1,026 for the outstanding amount of contributions to the HIS plan required for the fiscal ended September 30, 2015.

FRS - Defined Contribution Pension Plan

The SBA administers the defined contribution plan officially titled the FRS Investment Plan (Investment Plan). The Investment Plan is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular Class, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions

Florida Retirements System, Elected Official	3.00	43.24	42.27

Notes:

- (1) Employer rates include 1.26 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.04 percent for administrative costs of the Investment Plan. Rates for 7/1/14 - 6/30/15.
- (2) Contribution rates are dependent upon retirement class in which reemployed.
- (3) Employer rates include 1.66 percent for the post employment health insurance subsidy. Also, employer rates, other than for DROP participants, include .04 percent for administrative costs for the Investment Plan. Rates for 7/1/15 - 6/30/16.

* As defined by the Plan.

For all membership classes, employees are immediately vested in their own contributions and are vested after 1 year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to 5 years. If the employee returns to FRS-covered employment within the 5-year period, the employee will regain control over their account. If the employee does not return within the 5 year period, the employee will forfeit the accumulated account balance. For the fiscal year ended September 30, 2015, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

NOTE G - RETIREMENT PLAN - DEFINED BENEFIT PENSION PLAN, CONTINUED

FRS - Defined Contribution Pension Plan, continued

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's Investment Plan pension expense totaled \$81,834 for the fiscal year ended September 30, 2015.

Payables to the Investment Plan. At September 30, 2015, the District reported a payable of \$0 for the outstanding amount of contributions to the Plan required for the fiscal year ended September 30, 2015.

NOTE H - PROPERTY TAXES

Property taxes are levied after formal adoption of the District's budget and become due and payable on November 1 of each year and are delinquent on April 1 of the following year. Discounts on property taxes are allowed for payments made prior to the April 1 delinquent date. Tax certificates are sold to the public for the full amount of any unpaid taxes and must be sold not later than June 1 of each year. The billing, collection, and related recordkeeping of all property taxes is performed for the District by the Lee County Tax Collector. No accrual for the property tax levy becoming due in November 2015 is included in the accompanying basic financial statements, since such taxes are collected to finance expenditures of the subsequent period.

Procedures for collecting delinquent taxes, including applicable tax certificate sales and tax deed sales, are provided for by Florida Statutes. The enforceable lien date is approximately two (2) years after taxes become delinquent and occurs only upon request of a holder of a delinquent tax certificate. As of September 30, 2015, \$43,164 was recorded in the General Fund as due from the Lee County Tax Collector to the District for ad valorem taxes and excess fees.

AND RESCUE SERVICE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2015**

Page 41 of 65

NOTE H - PROPERTY TAXES, CONTINUED

Important dates in the property tax cycle are as follows:

Assessment roll certified	July 1
Millage resolution approved	No later than 93 days following certification of assessment roll
Taxes due and payable (Levy date)	November/with various discount provisions through March 31
Property taxes payable - maximum discount (4 percent)	30 days after levy date
Beginning of fiscal year for which taxes have been levied	October 1
Due date	March 31
Taxes become delinquent (lien date)	April 1
Tax certificates sold by the Lee County Tax Collector	Prior to June 1

The Board of Commissioners of the District levied ad valorem taxes at a millage rate of \$2.50 per \$1,000 (2.5 mills) of the 2014 net taxable value of real property located within the District.

NOTE I - ASSIGNED FUND BALANCE

Assigned fund balance in the General Fund consisted of the following at September 30, 2015:

Assigned fund balance	Amount
Operations	\$ 1,536,436
Disaster preparedness	40,000
Buildings	25,000
Vehicles	288,903
Capital equipment	35,000
Contingency	35,000
Projected 2015 Loss	250,000
Post Retirement Medical Reserve	120,000
Total assigned fund balance	<u><u>\$ 2,330,339</u></u>

Page 42 of 65

NOTE J - IMPACT FEE FUND ACTIVITY

During the year ended September 30, 2015, the Impact Fee Fund had the following activity:

	<u>Amount</u>
Unearned revenue, October 1, 2014	\$ 157,938
Impact fee receipts	29,957
Due from other governments	8,253
Interest income	1,033
Capital outlay	(5,979)
Fiscal charges	-
Unearned revenue, September 30, 2015	<u>\$ 191,202</u>

NOTE K - COMMITMENTS AND CONTINGENCIES

The District is involved from time to time in certain routine litigation, the substance of which either as liabilities or recoveries, would not materially affect the financial position of the District. Although the final outcome of the lawsuits, assertions and claims or the exact amount of costs and/or potential recovery is not presently determinable, in the opinion of the District's legal counsel, the resolution of these matters will not have a materially adverse affect on the financial condition of the District. As a general policy, the District plans to contest any such matter.

NOTE L - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Insurance programs for general/professional liability, crime and fidelity, automobile and property are covered by commercial insurance. The District retains the risk of loss up to a deductible amount (ranging from \$500 to 5% of loss) with the risk of loss in excess of this amount transferred to the insurance carrier with limits of general liability of \$1,000,000 per occurrence and \$3,000,000 in the aggregate. The District is third party insured for employee health, dental and vision, as well as workers' compensation.

**NORTH FORT MYERS FIRE CONTROL
AND RESCUE SERVICE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2015**

Page 43 of 65

NOTE M - POST-EMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS (OPEB)

The District provides insurance (health, dental, and life insurance) benefits to its retired employees through a defined benefit plan. All retired full-time employees are eligible for benefits if actively employed by the District immediately before retirement. As of September 30, 2015, there were twenty seven (27) retirees receiving benefits, twenty- three (23) of which are on the District's health insurance plan. The remaining four (4) retirees are of Medicare age and are receiving a stipend from the District. The opportunity to obtain coverage is available to all retired District employees. The benefits require contribution from the retirees, depending on certain specified criteria and, in particular, length of creditable employment. The District pays 4% of the premium cost per month for each year of service towards the employees' cost of insurance premiums up to 100% of the premium cost upon completion of 25 years of service. The District finances the benefits on a pay-as-you-go basis and recognizes expenditures at the time premiums are due.

The year ended September 30, 2010, was the District's transition year. As such, the District implemented GASB No. 45 on a prospective basis. As such, the District actuarially determined Net OPEB Obligation.

The retiree's premiums for these benefits totaled \$134,064 during the year ended September 30, 2015, of which the District paid \$114,846.

Funding Policy

The District's OPEB benefits are unfunded. The District has not determined if a separate trust fund or equivalent arrangement will be established into which the District would make contributions to advance-fund the obligation. Therefore, no separate financial statement is issued. All required disclosures are presented herein. The District obtained an actuarial valuation for its OPEB Plan to measure the current year's subsidies and project these subsidies into the future, making an allocation of that cost to different years. The following schedule of funding progress presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

(1) - Initial actuarial valuation dated 10/1/09 (transition year)

N/A - not available as this is not a factor of the Plan

Schedule of Contributions from Employer

Year Ended	Annual OPEB Cost	Expected Cash Payment		Percentage of Annual OPEB Cost	Net OPEB Obligation
09/30/10	\$ 518,000	\$ 43,000		8%	\$ 475,000
09/30/11	\$ 558,000	\$ 53,000		9%	\$ 980,000
09/30/12	\$ 601,000	\$ 64,000		11%	\$ 1,517,000
09/30/13	\$ 577,000	\$ 137,000		24%	\$ 1,957,000
09/30/14	\$ 611,000	\$ 153,000		25%	\$ 2,415,000
09/30/15	\$ 647,000	\$ 170,000		26%	\$ 2,892,000

Annual OPEB Cost and Net OPEB Obligation

The annual OPEB cost is the amount that was expensed in the current year. Since the District's plan is unfunded, the offset to that expense comes from subsidies paid on behalf of the current retirees and their dependents for the current year. This offset is called the expected cash payment. The cumulative difference between the annual OPEB cost for the year and the expected cash payment is called the net OPEB obligation (NOO). The net OPEB obligation is reflected as a liability in the Statement of Net Assets. The following table shows the components of the District's annual OPEB cost for the year and the net OPEB obligation.

**NORTH FORT MYERS FIRE CONTROL
AND RESCUE SERVICE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2015**

Page 45 of 65

**NOTE M - POST-EMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS
(OPEB), CONTINUED**

Annual OPEB Cost and Net OPEB Obligation, continued

<u>Fiscal year ended September 30, 2015</u>	<u>Amount</u>
Annual required contribution (ARC)	\$ 663,000
Less Net OPEB Obligation (NOO) amortization	(113,000)
Plus interest on NOO	<u>97,000</u>
Annual OPEB cost	647,000
Expected cash payment	<u>(170,000)</u>
Yearly change in OPEB obligation	477,000
Net OPEB obligation - beginning of year	<u>2,415,000</u>
Net OPEB obligation - end of year	<u><u>\$2,892,000</u></u>

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trend. Amounts determined regarding the funding status of a plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of benefit costs between the employer and plan members. The actual methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial valuation of assets, consistent with the long-term perspective of the calculations.

In the actuarial valuation for the year ended September 30, 2015, the projected unit credit cost method with linear pro-ration to assumed benefit commencement was used. The actuarial assumptions included a 4.0 percent discount rate. Since there are no invested plan assets held in trust to finance the Defined Benefit Plan - OPEB obligations, the discount rate is based on the long-term expectation of investment

(OPEB), CONTINUED**

Actuarial Methods and Assumptions, continued

return on assets held in District funds which is assumed to be 8%. The assumptions also included an annual healthcare cost trend using 8% in 2012 trending downward to 4.2% in 2050. The unfunded actuarial accrued liability, as calculated, is being amortized over a closed period of 30 years (as of October 1, 2009) as a level percent of pay (25 years remaining at September 30, 2015). The assumed rate of payroll growth is 3.0 percent and the assumed rate of inflation is 2.5%. The actuarial cost method used was the projected unit credit method. The amortization method was the closed method.

NOTE N - DEFICIT NET POSITION (NET ASSETS)

During the year ended September 30, 2014, the District's unrestricted net position (net assets) balance became a deficit, due substantially to recording the current year actuarially determined OPEB liability of \$458,000. The total OPEB liability at September 30, 2014, was \$2,415,000. This is a non-cash actuarially determined liability related to future cost of allowing retirees to remain on the District health care policy and for paying a portion of retiree coverage. The District's fund balance remains approximately equal to six (6) months budgeted expenditures.

During the year ended September 30, 2015, the District's net position (net assets) balance of \$(4,010,376) was again a deficit, due substantially to recording the current year actuarially determined OPEB liability of \$477,000, the recording of the net pension liability of \$4,005,042 and the abandonment of \$331,000 in CIP costs. The District's fund balance remains approximately equal to six (6) months budgeted expenditures. The District intends to put a referendum on the ballot in August 2016 to seek voter approval of an increase in the millage cap from 2.5 mills to 3.5 mills.

AND RESCUE SERVICE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2015**

Page 47 of 65

NOTE O - PRIOR PERIOD ADJUSTMENT

GASB Statement No. 68

The beginning net position of the District was decreased by \$4,924,452 due to the adoption of the new GASB Pronouncement, Statement No. 68, Accounting and Financial Reporting for Pensions. GASB Statement No. 68 requires the District to recognize its proportionate share of the net pension liabilities and related pension amounts of the cost-sharing multiple-employer FRS and HIS defined benefit plans.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
September 30, 2015**

Page 56 of 65

Changes of Assumptions

Actuarial assumptions for both cost-sharing defined benefit plans are reviewed annually by the Florida Retirement System Actuarial Assumptions Conference. The FRS Pension Plan has a valuation performed annually. The HIS Program has a valuation performed biennially that is updated for GASB reporting in the year a valuation is not performed. The most recent experience study for the FRS Pension Plan was completed in 2014 for the period July 1, 2008, through June 30, 2013. Because the HIS Program is funded on a pay-as-you-go basis, no experience study has been completed for that program. The actuarial assumptions that determined the total pension liability for the HIS Program were based on certain results of the most recent experience study for the FRS Pension Plan.

The total pension liability for each cost-sharing defined benefit plan was determined using the individual entry age actuarial cost method. Inflation increases for both plans is assumed at 2.60%. Payroll growth, including inflation, for both plans is assumed at 3.25%. Both the discount rate and the long-term expected rate of return used for FRS Pension Plan investments is 7.65%. The plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

Because the HIS Program uses a pay-as-you-go funding structure, a municipal bond rate of 3.80% was used to determine the total pension liability for the program (Bond Buyer General Obligation 20-Bond Municipal Bond Index). Mortality assumptions for both plans were based on the Generational RP-2000 with Projection Scale BB tables.

Florida Retirement System Pension Plan

There were no changes in actuarial assumptions. As of June 30, 2015, the inflation rate assumption remained at 2.6 percent, the real payroll growth assumption was 0.65 percent, and the overall payroll growth rate assumption remained at 3.25 percent. The long-term expected rate of return remained at 7.65 percent.

Health Insurance Subsidy Pension Plan

The municipal rate used to determine total pension liability decreases from 4.29 percent to 3.80 percent.

Page 57 of 65

Pension Expense and Deferred Outflows/Inflows of Resources

In accordance with GASB 68, paragraphs 54 and 71, changes in the net pension liability are recognized in pension expense in the current measurement period, except as indicated below. For each of the following, a portion is recognized in pension expense in the current reporting period, and the balance is amortized as deferred outflows or deferred inflows of resources using a systematic and rational method over a closed period, as defined below:

- Differences between expected and actual experience with regard to economic and demographic factors - amortized over the average expected remaining service life of all employees that are provided with pensions through the pension plan (active and inactive employees)
- Changes of assumptions or other inputs - amortized over the average expected remaining service life of all employees that are provided with pensions through the pension plan (active and inactive employees)
- Changes in proportion and differences between contributions and proportionate share of contributions - amortized over the average expected remaining service life of all employees that are provided with pensions through the pension plan (active and inactive employees)
- Differences between expected and actual earnings on pension plan investments - amortized over five years

Employer contributions to the pension plans from employers are not included in collective pension expense. However, employee contributions are used to reduce pension expense.

The average expected remaining service life of all employees provided with pensions through the pension plans at June 30, 2015, was 6.3 years for FRS and 7.2 years for HIS.

ADDITIONAL REPORTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF BASIC
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS

Board of Commissioners
North Fort Myers Fire Control and Rescue Service District
P.O. Box 3507
North Fort Myers, Florida 33918

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States of America, the basic financial statements of the governmental activities and each major fund of North Fort Myers Fire Control and Rescue Service District (the "District") as of and for the year ended September 30, 2015, and the related notes to the financial statements which collectively comprise the District's basic financial statements as listed in the table of contents and have issued our report thereon dated May 5, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the basic financial statements will not be prevented or detected and

INTEGRITY SERVICE EXPERIENCE

corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses, as defined previously. However, material weaknesses may exist that have not been identified.

We did, however, note certain other matters, comment 2013-1 and 2014-1 in our report to management dated March 2, 2016.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether North Fort Myers Fire Control and Rescue Service District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE
WITH SECTION 218.415, FLORIDA STATUTES**

Board of Commissioners
North Fort Myers Fire Control and Rescue Service District
P.O. Box 3507
North Fort Myers, Florida 33918

We have examined North Fort Myers Fire Control and Rescue Service District's compliance with Section 218.415, Florida Statutes, regarding the investment of public funds during the year ended September 30, 2015. Management is responsible for North Fort Myers Fire Control and Rescue Service District's compliance with those requirements. Our responsibility is to express an opinion on North Fort Myers Fire Control and Rescue Service District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about North Fort Myers Fire Control and Rescue Service District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on North Fort Myers Fire Control and Rescue Service District's compliance with specified requirements.

In our opinion, North Fort Myers Fire Control and Rescue Service District complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2015.

This report is intended solely for the information and use of the North Fort Myers Fire Control and Rescue Service District and the Auditor General, State of Florida, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT TO MANAGEMENT

Board of Commissioners
North Fort Myers Fire Control and Rescue Service District
P.O. Box 3507
North Fort Myers, Florida 33918

We have audited the accompanying basic financial statements of North Fort Myers Fire Control and Rescue Service District (the "District") as of and for the year ended September 30, 2015 and have issued our report thereon dated May 5, 2016.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States of America and Chapter 10.550, Rules of the Florida Auditor General. We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters based on an audit of the financial statements performed in accordance with Government Auditing Standards and Chapter 10.550, Rules of the Florida Auditor General. Disclosures in those reports, which are dated May 5, 2016, should be considered in conjunction with this report to management.

Additionally, our audit was conducted in accordance with Chapter 10.550, Rules of the Auditor General, which governs the conduct of local governmental entity audits performed in the State of Florida. This letter includes the following information, which is not included in the aforementioned auditor's reports:

- Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. The prior year comments that have not been resolved have been repeated.
- Section 10.554(1)(i)2., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. One such recommendation was noted to improve financial management.

INTEGRITY SERVICE EXPERIENCE

- Section 10.554(1)(i)3., Rules of the Auditor General, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have an effect on the financial statements that is less than material but more than inconsequential. In connection with our audit, we did not have any such findings.
- Section 10.554(1)(i)4., Rule of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in the management letter, unless disclosed in the notes to the financial statements. The District discloses this information in the notes to the financial statements.
- Section 10.554(1)(i)5.a., Rules of the Auditor General, requires a statement be included as to whether or not the local government entity has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. The District did not meet any of the conditions described in Section 218.503(1). Florida Statutes.
- Section 10.554(1)(i)5.b., Rules of the Auditor General, requires that we determine whether the annual financial report for the District for the fiscal year ended September 30, 2015, filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a) Florida Statutes, is in agreement with the annual financial audit report for the fiscal year ended September 30, 2015. In connection with our audit, we determined that these two reports were in agreement.
- Pursuant to Sections 10.554(1)(i)5.c. and 10.556(7), Rules of the Auditor General, we have applied financial condition assessment procedures. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same. In connection with our audit, we determined that the District did meet one or more of the criteria of a deteriorating financial condition described in Section Auditor General Rule 10.554(1)(i)(6).c. See comment 2013-1.
- Pursuant to Section 10.554(1)(i)5.d., Rules of the Auditor General, requires a statement indicating a failure, if any, of a component unit Special District to provide financial information necessary to a proper reporting of the component unit within the audited financial statements of this entity (F.S. Section 218.39(3)(b)). There are no known component special districts required to report within these financial statements.

- Section 10.556(10)(a), Rules of the Auditor General, requires that the scope of our audit to determine the entity's compliance with the provisions of Section 218.415, Florida Statutes, regarding the investment of public funds. In connection with our audit, we determined that the District complied with Section 218.415, Florida Statutes as reported in our Independent Accountant's Report on Compliance with Section 218.415, Florida Statutes dated May 5, 2016, included herein.

PRIOR YEAR COMMENTS:

2013-1 Certain Indications of a Deteriorating Financial Condition Noted, As Amended

We applied financial condition assessment procedures as required by Auditor General Rule 10.554(l)(i)6.c. We used the financial condition assessment tools provided on the Auditor General's website. The results of the procedures showed the following three (3) unfavorable indicators:

- change in net assets/beginning net position
- ratio of cash and investments/current liabilities
- ratio of accumulated depreciation/capital assets

The aforementioned balances and ratios are trending in an unfavorable direction and are unfavorable when compared to the respective balances and ratios of other districts of a similar function and size. In addition, the District has experienced net losses (expenditures in excess of revenues) in six of the last seven years. During 2015, the District experienced revenue in excess of expenditures of \$67,612.

It should be noted, the District had budgeted and worked to build the District's fund balance prior to the economic downturn in an effort to ready the District for such an event. Since the downturn the Board and management have vigilantly monitored the budget and reduced expenses. As a result many cost cutting measures were implemented such as employee buyouts, staff reductions, closing of a station and suspending construction. The Board and management are analyzing further cost reduction efforts. A five year plan was approved that included several cost reduction efforts. The Board and management of the District are confident it will remain in stable financial condition.

The budgeted use of unassigned fund balance, along with the related reduction in cash balances, contributes to the unfavorable ratings for each of the above indicators. As a result, although planned and budgeted, the District experienced indications of a deteriorating financial condition.

We recommend the District continue to monitor its expenditures closely in the future and investigate additional revenue sources to help mitigate further financial hardships and promote further operational efficiency.

September 30, 2014

The District budgeted for use of reserves for FY14 and did use reserves. The District has implemented cost cutting measures, including salary reductions through attrition to work towards eliminating the use of reserves to fund operations. Tax revenues have also begun to increase with the improving real estate market. At September 30, 2014, the District fund balance is equal to approximately six (6) months budgeted expenditures.

Current year addendum:

The prior year comment has been amended to reflect the year ended September 30, 2015, results of the financial condition assessment. Tax revenues have been increasing for the last two years, due to the improving real estate market. Also, in the current year, the District had revenues in excess of expenditures of \$67,612. The current year's financial assessment had an overall result of inconclusive, although three (3) financial indicators, as noted above, reflected unfavorable results. The District has resolved to place a referendum on the August 2016 ballot to raise the District's millage cap from 2.5 mills to 3.5 mills. If passed, this increase could increase revenue by approximately \$2 million if fully implemented at current assessment levels. We recommend the District make every effort to control costs until the results of the referendum are known and/or the District's financial condition improves. If passed, the new millage rate would take effect for FY 18.

2014-1 Board Should Re-evaluate the OPEB Benefit

Currently, the District pays 4% of premium cost per month for each year of service up to 100% of the premium cost for District retirees until attainment of Medicare age. The District paid approximately \$119,000 in FY 14 for retiree coverage. The District's actuary has determined the District's future liability for this benefit is \$2,415,000 at September 30, 2014. GASB Statement No. 45 requires the District to record this liability which has caused the District's unrestricted net position (net assets) to become a deficit. We recommend the Board re-evaluate this benefit in light of the District's current financial position.

Current year addendum:

In October 2014, the District revised the Retiree Insurance Policy. The revision included placing a cap on the amount the District contributes to the health insurance premium of its retirees. The new policy states the maximum amount the District will

contribute is \$443 monthly. Also, the retiree insurance policy is no longer available for new hires after October 1, 2014. The policy also places a limit of \$225 monthly, on the stipend that is paid to retirees who have reached Medicare age, and are no longer on the District's health insurance plan. We recommend the Board continue to review this policy in light of the District's financial condition.

CURRENT YEAR COMMENTS:

There were no financially significant current year comments.

Pursuant to Chapter 119, Florida Statutes, this management letter is a public record and its distribution is not limited. Auditing standards generally accepted in the United States of America require us to indicate that this letter is intended solely for the information and use of the Board of Commissioners, management, the Auditor General of the State of Florida and other federal and state agencies. This report is not intended to be and should not be used by anyone other than these specified parties.

Managements Response to Comment#:

2013-1

The District has a referendum on the August 2016 election ballot to increase the millage rate from 2.5 to 3.5. This will allow for additional funding to meet the current needs of the District. In an effort to recoup certain costs, the District has adopted fees for services such as fire extinguisher training (previously provided at no cost), as well as charging for repetitive false alarm activations. The District is also being very conservative in reducing expenditures; as we do not want to freeze filling positions that become open, due to upcoming retiring employees.

2014-1

In October 2014, the District revised the current Retiree Insurance Policy. However, due to the continued increase in this liability, the District is going to have to look at another revision to this policy.

Sincerely,

David Rice
Fire Chief
